AMERICAN FAMILY ALBUM

You Will Need:

- Album page*
- Colored background sheet*
- #2 Pencil
- Ruler
- Photo-safe glue stick
- 7 Photographs (copies)*
- Scissors or craft knife
- 4 Coordinating solid-colored papers*
- Sheet protector

Instructions

1. Use a photocopier to enlarge this pattern to fit your album page or follow the transfer directions given in the main document.
2. Cut your background sheet to fit your album page. Using 2 additional colors create a double mat for the center of your page with one square slightly smaller than the other. Glue them down.
3. Using pattern piece A, cut 7 diamonds from one of your solid color papers. Do the same with piece B, using another solid color paper.
4. Using pattern piece C, trim 7 photos. Be sure the subject(s) of your photos are within the trim area.
5. Glue the solid color diamonds and trimmed photos in the arrangement shown here.
6. Add a page title or journaling.
7. Adhere background sheet to album page.
8. Insert your finished page into your sheet protector. Now you're ready to place it in your album!

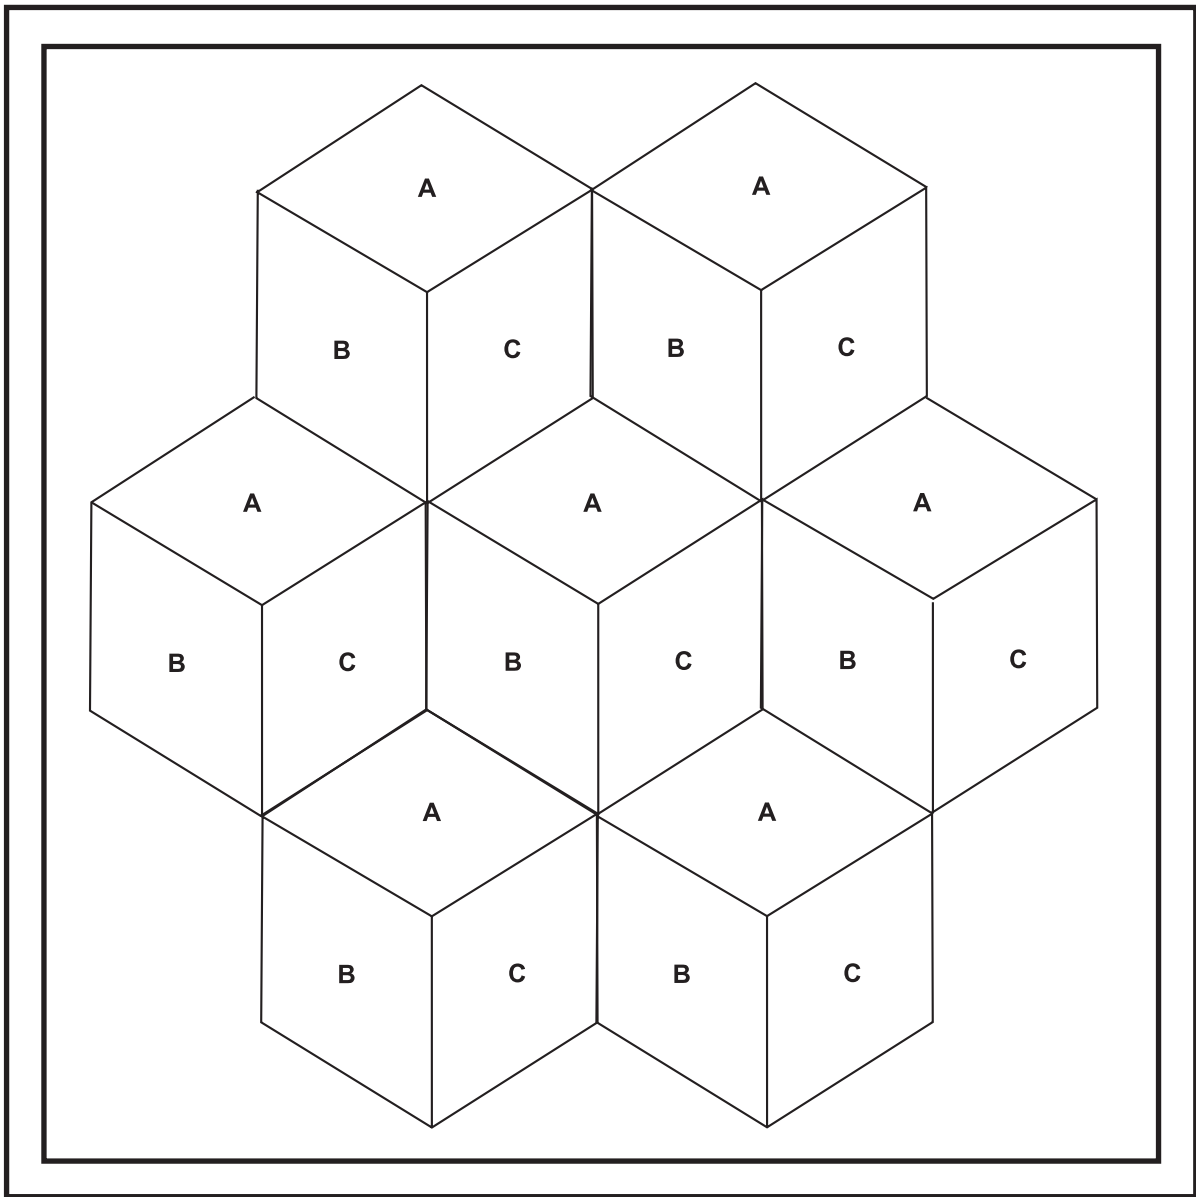

IMPORTANT: When trimming your photos, be sure your pattern piece is rotated in the same position as shown in our example for all 7 photos, or photos will seem askew. (Use a ruler to line up the right and left edges of the diamond shapes, so they are perfectly vertical.)

* Acid-free products are recommended.
