You Will Need:

- Album page*
- #2 Pencil
- Decorative paper for background sheet*
- Photo-safe glue stick
- Photographs (copies)*
- Scissors or craft knife
- Flat mementos or color copies of mementos (such as lace, invitations, announcements, certificates)
- Black photo corners (optional)
- Sheet protector

Instructions

NOTE: This is a free-form design that allows you to create your own layout. No pattern is provided. You may want to make color copies of your mementos if they are too large or thick to adhere to your page.

1. Cut your background sheet to fit your album page.
2. Arrange all of your elements (mementos & photos) on your background sheet in a layout that pleases you. Use pieces of lace or doily to create borders or framing elements.
3. Make light pencil marks on your background page to indicate where each item will be placed.
4. Begin gluing the items, starting with the bottom layer.
5. Glue your photos and any title or journaling cards on last.
6. Adhere background sheet to album page.
7. Insert your finished page into your sheet protector. Now you're ready to place it in your album!

* Acid-free products are recommended.
