

Make a Brittle Star

To make your brittle star, you will need:

Index Cards

Scissors

Crayons

Pipe Cleaners

Glue

Step 1:

Fold an index card in half. Cut out two circles for the brittlestar's body.

Step 2:

Color the body pieces.

Step 3:

Glue the other circle on top of the pipe cleaners so you can no longer see the ends and both circles line up. Let dry.

Step 4:

Shape the pipe cleaners to mimic the rays of a brittle star.
