

LESSON PLAN: Crisis in Sudan: Responding to Medical Emergencies

Name: _____

Handout: Guiding Questions for research

1. What is the disease like? What are the symptoms that accompany the disease? Is it lethal? If so, under what conditions?
2. What is its cause? How does a person get it?
3. How is it treated?
4. Can it be prevented? If so, how?
5. Where is this disease most prevalent? How widespread is it in Sudan? How widespread is it in the United States?
6. What actions are being taken to control this disease? What more needs to be done?
