
Slip Sliding Away

Foam Board Model

Directions

- 1 Use a pencil to mark off four equal sections on each 91 cm by 30 cm (36 in. by 12 in.) piece of foam board.
- 2 Cover the first section with acetate sheets to create a slick surface.
- 3 Glue 3 small rocks across the middle of the plain foam of the second section.
- 4 Cover the third section with a piece of burlap or 3 to 4 sheets of cheesecloth.
- 5 Glue 10 to 12 small rocks on the plain foam of the fourth section.
